

HOKAS pro is inspired to fulfill the needs of the heavy garden users. It focuses on ergonomic design and function durability to exceed garden user's expectation.

With 100% self-inspection, excellent quality guaranteed.

How to choose different types of blade?

BYPASS- Cutting blade by-passes counter blade in a scissors-like action. Suitable for fresh living growths.

ANVIL- Suitable for dry, deadwood and hard growths.

FLORAL- Best for cutting flowers and fruit branches.

Item	Description	Package	Replaceable spare parts

Brand

HOKAS is the Taiwanese pronunciation of easy-cutting. It is derived from the purpose of designing whole product series. Located in Changhua City, Taiwan, a family-run factory started with die-casting and operated for decades. In 2010, HOKAS began exporting garden tools worldwide. With constant desire for being accepted by professional users, collaboration with global designers has triggered new vision. HOKAS is determined to carry on fulfilling the need of tool users, and this passionate mission has handed down for generations while exploring new possibilities.

THE PRODUCT

HOKAS offers 2 products series for option, DIY and PROFESSIONAL series.

HOKAS DIY

Products that are recommended for home gardeners. HOKAS DIY provides easy-to-use tools with reliable quality and amazing user experiences.

HOKAS PRO

Products especially designed for wine growers, florist and fruiter. HOKAS PRO is with the product features of long-lasting durability and unsurpassed sharpness. The ergonomic design makes the tool suitable for long-time using.

HOKAS DIY presents excellent products to be with gardening hobbyists.
 HOKAS DIY brings fun and enjoyable gardening life.
 HOKAS DIY provides easy-to-use tools with reliable quality and satisfying experiences.
With 100% self-inspection, excellent quality guaranteed.

Item	Description	Package
